INFORMATION DISCLOSURE STATEMENT

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

The instant Information Disclosure Statement is submitted to make of record the Cooke, et al. patent, along with three other patents cited in the specification. Cooke, et al. had not been granted at the time that either parent application was filed. Cooke, et al. discloses the use of nicotine or other nicotine receptor agonist in angiogenesis and vasculogenesis processes. Also disclosed at pages 11 and 12 is the additional use of certain agents which enhance angiogenesis and the use of additional vessel growth inducing agents. The other three references are cited for reasons already set forth in the specification.

International Publication No. WO 01/08683 A1 is also included. Such publication relates to the field of mobilization and recruitment of stem cells and progenitor cells in processes such as vasculogenesis and angiogenesis.

Applicant submits that the claimed invention is novel and unobvious over the cited references, taken alone or properly combined with any of the other references.

An early action on the merits of the application is respectfully requested.

Respectfully submitted,

Date: March 2, 2004
